DICTIONARY

Controllers

Controllers are the “brains” of every Control4® system. They run the Control4® Operating System to manage an installation and control all of the devices and settings in your home or business automation system. The controllers come fully loaded with support for the MyHome app so you can access and manage your system from virtually anywhere in the world using your smartphone, tablet or PC*. TuneIn, which delivers music, news and sports radio from around the world, and intercom capability if you choose to enable whole-home communications.

Control4® HC-800 Controller

Designed to serve as the primary controller for every Control4® installation, the HC-800 has the power to connect and control virtually anything in the home at blazing-fast speeds.

- Instantaneous, interactive on-screen control and browsing of large media libraries
- Certified HDMI with audio and video, plus extensive audio inputs and outputs, IR, serial, contacts and relays for reliable connectivity
- Sleek, elegant design for flexible installation in a cabinet, on a shelf or in a rack

Control4® HC-250 Controller

An ideal controller for single-room solutions, the HC-250 is a great alternative to more limited universal remote solutions and also easily delivers on-screen control to each TV in larger installations.

- Sleek, low-profile design with integrated power supply and PoE provides flexible installation options and makes it the perfect behind-every-TV solution
- Certified HDMI with audio and video, plus component video output to integrate with legacy systems
- Connect and control virtually anything in the room with audio outputs, audio input, IR, serial, contact and relay for reliable connectivity

Control4® IO Extender

Easily add more control capability to your new or existing home-control system.

- Extended IR and serial outputs plus 8 additional contacts and 8 relays
- Flexible rack or wall mounting options

*Anywhere Access requires a 4Sight subscription

Interfaces

You'll always feel right at home with the intuitive, easy-to-use Control4® user interface. This award-winning interface is consistent across devices but also allows you to customize backgrounds and add shortcuts to your personal favorites so the experience is uniquely yours. Find the perfect combination of dedicated touch screens, remotes, keypads and smartphones or tablets with MyHome to create convenient control anywhere you need it.

Control4® 7" In-Wall Touch Screen with Camera

Enjoy dedicated control and high-performance video intercom capability in a sleek in-wall touch screen.

- Edge-to-edge capacitive glass and low-profile mount deliver a visually stunning, total-control solution
- Integrated camera with high-fidelity H.264 full-motion video intercom
- Integrated speakers and dual microphones with beam-forming and wideband audio for crystal-clear audio intercom
- Supports Wi-Fi and Ethernet, and AC or PoE power
- Four programmable buttons
- Available in black and white

Control4® 7" Portable Touch Screen with Camera

A flexible, dedicated control device with high-performance video intercom capability in an elegant tablet form factor.

- Integrated camera with high-fidelity H.264 full-motion video intercom
- Integrated speakers and dual microphones with beam-forming and wideband audio for crystal-clear audio intercom
- Easily configured as a tethered tabletop device ideal for countertops, end tables and nightstands or as a truly portable device with a charging station

Control4® In-Wall Touch Screens

Award-winning touch screens offer dedicated control and audio intercom capability with a sleek look and feel and four programmable buttons.

- Edge-to-edge capacitive glass and low-profile mount
- Optional intercom functionality lets you chat, monitor or broadcast with other intercom-enabled devices
- Available in 5" and 7" sizes, in black and white

Control4® MyHome Apps

Interact with your Control4 system from your favorite smartphone and tablet. Control your entire system, access music and movies by cover art or even view images from the cameras around the house.

- Apps available for Apple® iPhone, iPod Touch, iPad, Android smartphones and tablets, PCs or Macs
- Enjoy Anywhere Access with MyHome and a 4Sight subscription

Control4® System Remote Controls

Control your home theater and your whole house from one remote.

- The SR-250 features a high-visibility screen and backlit keys for easy use in any lighting conditions
- Single-button press on the SR-250 turns on your A/V gear so you can start watching or listening to your favorite movies or music instantly
- Use the SR-250 list navigator to conveniently control your system from the remote, or use the remote to operate your system from your TV screen
- The SR-150 is available without an LCD screen and list navigator
- Optional Remote Recharging Station keeps your remotes charged and ready at all times

Control4® Remote Recharging Stations

Keep your SR-150 and SR-250 System Remote Controls always charged and ready to control.

- Low-profile charging cradle with a small power supply and a Lithium-Polymer battery kit provides hundreds of charge cycles for years of performance
- Available as a charging cradle and battery kit for remotes you already own
- Different batteries and covers available for the SR-150 and SR-250 remotes
- Available as a kit with a charging cradle and an SR-250 or SR-150 if you want to add new remotes to your system

Interfaces

Control4® Decora® Wired and Wireless Keypads

Control virtually anything with one-touch ease with these elegant Decora® style keypads in an array of sophisticated colors and finishes.

- Four button sizes can be arranged in up to 37 different configurations so you can choose the best solution for each individual keypad
- Customizable LED colors for visible status updates
- Buttons can be custom engraved for easy identification
- Ambient light sensor automatically adjusts backlight and status LED brightness based on current room light level
- Wireless versions work with existing electrical wiring and communicate over the ZigBee network
- Wired versions utilize a low-voltage bus for communication and power

Control4® Square Wired Keypads

Control virtually anything with one-touch ease with these elegant keypads in a square design.

- Same features as the Decora Wired Keypads above, but in a square form factor

Color and finish options

Control4® wired and wireless and lighting controls are available in a wide variety of colors and finishes.

Gloss	Satin	Metal
White	Snow White	Satin Nickel
Black	Aluminum	Stainless Steel
Light Almond	Biscuit	Venetian Bronze
Ivory	Midnight Black	
Brown		

NOTE: Light almond, ivory and brown are not available for all 240V products. Control4 Wired Keypads are available only in white and black. Metal finishes are for faceplates only.

Audio/Video

Design a home theater masterpiece, a killer multi-room music solution or just get rid of all the remotes on your coffee table.

Control4® Audio Matrix Switch

Bring audio sources together for distribution throughout your home.

- Enable up to 16 different audio sources in 16 different zones
- Full matrix-switching capability and independent-gain control in each zone
- Ideal for use with Control4® amplifiers when more than eight audio sources and/or zones are required

Control® 8x8 HDMI Matrix Switch

Enjoy all your favorite HD video content on every TV in the home.

- View up to 8 different HDMI video sources at 8 different TV locations
- Delivers full HD video (up to 1080p), multi-channel audio, control and Ethernet to every TV location
- Eliminates equipment and clutter in each room by tucking away all video sources and wiring into a central location

Control4® 100 Series 4 & 8-Zone Power Amplifiers

Powerful audio performance in multiple audio zones.

- 4-Zone model delivers 45W per channel of high-quality sound to four stereo speaker outputs and includes four analog zone inputs
- 8-Zone model provides 30W per channel of power to eight stereo speaker outputs and includes eight analog zone inputs
- Automatic signal-sensing feature saves energy by putting the amplifier into standby when not in use

Control4® 4 & 8-Zone Matrix Amplifiers

Full matrix switching, amplification and volume control in one product.

- 4-Zone model delivers 60W per channel of high-quality sound to four stereo speaker output zones and includes four analog and two digital source inputs
- 8-Zone model provides 120W per channel of power to eight stereo speaker output zones and includes eight analog source inputs
- Advanced parametric equalizer capability and the Control4 Equalizer app drive professional-quality sound

Control4® SpeakerPoint

Send music to any room in your house over a wired or wireless connection.

- Enjoy high-quality audio in a few rooms or all of them
- One analog input source, one speaker output zone and one line-level output zone

Control4® Wireless Music Bridge

A simple, elegant way to enjoy music available on your phone, tablet or computer through your Control4 system.

- Wirelessly connects your own music collection as well as streaming music services like Pandora and Spotify
- Combines AirPlay, DLNA and Bluetooth technologies, allowing connectivity with virtually any smartphone, tablet, PC and Mac
- Delivers your music artwork and metadata to Control4® touch screens, on-screen displays and MyHome apps
- Continue using your smartphone, tablet or computer while listening to music with amazing sound quality

napster a Rhapsody company

Rhapsody

tunein

Streaming Music Services

Enjoy your favorite online music through your Control4 system.

- Napster: Enjoy more than 15 million songs in every music genre—from the latest releases to your personal favorites. Rhapsody: Access more than 15 million Rhapsody songs or playlists directly from any Control4 touch screen, TV or your smartphone or tablet
- TuneIn: Listen to 70,000 Internet radio stations and millions of podcasts, talk shows, news and sports programs from around the world—all through the intuitive Control4® User Interface
- Enjoy any of your favorite streaming music solutions, including Pandora and Spotify, using your mobile device and the Wireless Music Bridge

Control4® Multi-Tuner with XM Radio

Experience the power of traditional or satellite radio.

- Enjoy up to three simultaneous stations, including two AM/FM and an optional XM satellite radio stream
- View channel, artist and song information on your touch screens, on-screen navigators and any mobile device with MyHome

Control4® Media Player

Enjoy excellent video quality and independent room control.

- Supports multiple digital-media formats including MPEG-2, MPEG-4, WMV, M4V, WAV and more
- Automatically up-scales video to 1080p over HDMI

Audio/Video

Introducing new standards of excellence for universal remote and high-end home theaters. Activate these receivers to transform them into fully-programmable Control4® controllers*.

Sony® STR-DA2800ES with Full Control4® Automation

- 7.2 channel A/V receiver with legendary ES sound quality
- Control4 automation built in to deliver full controller capability
- HDMI ports: eight in and two out
- Broad selection of media streaming services
- 4K pass-through

Sony® STR-DA5800ES with Full Control4® Automation

- 9.2 channel A/V receiver with legendary ES sound quality
- Control4 automation built in to deliver full controller capability
- HDMI ports: nine in and two out
- Broad selection of media streaming services
- 4K up-scale/4K pass-through

*Only available in the US and Canada.

Lighting

Control4® dimmers and switches replace existing light switches or plug into outlets to offer complete control of your lights and electronic equipment without construction hassles.

Control4® Wireless Adaptive Phase Dimmer

- Compatible with a broad range of dimmable load types including most LEDs, incandescents, halogens, electronic low-voltage (solid state) transformers, magnetic (iron core) low-voltage transformers, fluorescents and compact fluorescents
- 120V, 240V, or 277V

Control4® Wireless Configurable Keypad

- An elegant and customizable user interface that unlocks the power of one-touch automation, enabling control of lighting plus control of audio, video, security and more
- Configured with two to seven custom-engraved LED backlit buttons, using four different button sizes, for a total of 37 possible configurations
- 120V/277V or 240V

Control4® Wireless Keypad Dimmer

- Transforms a standard light switch or dimmer into a fully customizable keypad and dimmer
- Combines the dimming capabilities of the Control4 Wireless Adaptive Phase Dimmer with the flexibility of the Control4 Wireless Configurable Keypad
- 120V, 240V, or 277V

Control4® Wireless Fan Speed Controller

- Delivers elegant, quiet speed control of standard paddle-type ceiling fans
- Four fan speed buttons and one off button
- Allows fan speed control to be incorporated into climate control scheduling and other automated events
- 120V

Control4® Wireless 0-10V Dimmer

- Elegant, in-wall control of four-wire 0-10V dimmable fluorescent ballasts and LEDs
- 120V/277V or 240V

Control4® Auxiliary Keypad

- Economical solution for three-way control of a load
- Use existing in-wall three-way wiring to wire directly to any compatible Control4 dimmer, switch, or fan-speed controller
- 120V/277V

Lighting

Control4® Wireless Forward Phase Dimmer

- An economical solution for dimming forward-phase compatible loads, including incandescents, line-voltage halogens and magnetic transformers
- Great for dimming high-wattage loads such as chandeliers and large banks of recessed lights
- Compatible with forward-phase dimmable LEDs, CFLs, and fluorescents
- 120V

Control4® Wireless Switch

- On/off control for virtually every type of load, including LEDs, incandescents, halogens, electronic low voltage (solid state) transformers, magnetic (iron core) low voltage transformers, fluorescents, compact fluorescents and motors—including ceiling fans and bathroom ventilation fans
- Handles high in-rush loads such as fountain pumps or large banks of fluorescent lights
- 120V/277V or 240V

Control4® Wireless Outlet Dimmers and Switches

Instantly make any household plug-in device part of a Control4 system.

- Turn any standard outlet into two smart outlets
- Small form factor with secure mounting
- Built-in and power-current sensing on the switch

Color and finish options

Control4 wired and wireless and lighting controls are available in a wide variety of colors and finishes.

Gloss	Satin	Metal
White	Snow White	Satin Nickel
Black	Aluminum	Stainless Steel
Light Almond	Biscuit	Venetian Bronze
Ivory	Midnight Black	
Brown		

NOTE: Light almond, ivory and brown are not available for all 240V products. Control4 Wired Keypads are available only in white and black. Metal finishes are for faceplates only.

Climate

Advanced temperature control is a simple and affordable addition that also provides real energy savings.

Control4® Wireless Thermostat

Easily add advanced temperature control to respond to the season, event or time of day.

- Bi-directional communication with all Control4® interfaces
- Stand-alone functionality
- Up to six customizable set points per day

Whole home communication

Keep in contact with your entire household or business using cutting-edge video and audio intercom communications.

Control4® Door Station

Convenient communications, monitoring and control of a front door or gate for added peace of mind.

- Available in Satin Nickel, Satin Black, Venetian Bronze
- Integrated camera with H.264 full-motion video
- Integrated speakers and dual microphones with beam-forming and wideband audio for incredible intercom sound
- Flexible installation options with Wi-Fi or Ethernet and AC, DC or PoE power

Control4® 7” In-Wall Touch Screen with Camera

Enjoy dedicated control and high-performance video intercom capability in a sleek in-wall touch screen with four programmable buttons.

- Edge-to-edge capacitive glass and low-profile mount deliver a visually stunning, total-control solution
- Integrated camera with high-fidelity H.264 full-motion video intercom
- Integrated speakers and dual microphones with beam-forming and wideband audio for crystal-clear audio intercom
- Supports Wi-Fi and Ethernet, and AC or PoE power
- Available in black and white

Control4® 7” Portable Touch Screen with Camera

A flexible, dedicated control device with high-performance video intercom capability in an elegant tablet form factor.

- Integrated camera with high-fidelity H.264 full-motion video intercom
- Integrated speakers and dual microphones with beam-forming and wideband audio for crystal-clear audio intercom
- Easily configured as a tethered tabletop device ideal for countertops, end tables and nightstands or as a truly portable device with a charging station

Security and monitoring

Ensure that your home is safe and secure by integrating your Control4 system with smart door locks, cameras and 24/7 monitoring systems.

Control4® 4Sight with Anywhere Access

Monitor and manage your Control4 system from anywhere you have an Internet connection with this annual subscription service.

- Anywhere, anytime access with 24/7 home monitoring and control from anywhere you have an Internet connection or 3G/4G service
- Receive security or event alerts no matter where you are
- Control locks, lights and more from your iOS/Android smartphone or tablet

Smart Locks

Control4 automation systems seamlessly integrate with smart locks from Kwikset, Baldwin and Yale to provide you with full control over your door locks. With a 4Sight subscription, set custom passwords, get alerts and lock or unlock doors from anywhere in the world, to make sure your home or office is safe and sound.

Sensors

From garage door packages to water leak kits, from motion sensors to contacts and relays that can be placed on doors, windows or cabinets throughout your home or office, Control4 automation integrates with thousands of products designed to make sure you are always in control.

IP Cameras

The Control4 system integrates with a wide range of IP cameras so you can keep a virtual “eye” on your home, office and loved ones—no matter where you are.

Security Systems

Make sure your security system is completely in sync with your Control4 automation system. We work with the top security systems to integrate alerts and notifications, arming and disarming with the rest of your automation system.

Every project is unique

At Control4, we pride ourselves on delivering personalized control and automation solutions for everyone. In order to maintain the highest level of customer service and satisfaction for our customers, we require that all Control4® solutions be custom installed and serviced by an authorized Control4® dealer. Find a Control4 dealer in your area at control4.com.
